If you are seeking a different type of alter, please reach out, and we can discuss feasibility and cost on a case by case basis.

How the alters are done:

Alters are done with acrylic paints, and finished alters are sealed with a layer of varnish. Alters take 3-4 hours for most cards, and 4-5 hours for more complex ones. Cards will be acquired from local shops whenever possible.

Altered cards may not be legal for tournament use. Please check the rules of your tournament, and have an extra copy of the card just in case. Acrylic paint and varnish do add thickness to cards, and may result in a card being considered marked.

Shipping:

Cards will be shipped in clear sleeves and toploaders. Additional padding will be used as needed. Shipping will be calculated into the final price to be paid by the customer.

Payment Options:

Currently only PayPal is being used for commissions.

A deposit of the price of the card is required for any card costing more than \$5. Remaining payment for labor, shipping, and detailing costs (if applicable) will be due upon completion.

Alters will be shipped once the invoice is paid, and the customer will be provided with a tracking number.
